Customer Reviews:

- I have several of these pods in my cattery and my feline guests love them. They make the cats feel secure when they initially arrive in a unfamiliar surroundings, easy to clean and keep the cats nice and warm with a soft piece of pet bedding.
- Excellent easy to clean and cat feels very safe.
- The Pet Pod/Dome is an instant success with my 6 Russian Toy 5 week old pups, they feel safe, enclosed and free from draught's, it's strong durable plastic. It's hygienic and easy to clean.
- This bed is great, my cat is only just warming to it though! It's well made, nice colour, roomy inside, quality, looks hard wearing/long lasting, looks different. My cat is getting used to it now and seems to enjoy curling up in it whilst still having plenty of room to wash herself and stretch.
- Absolutely love the Pet Pods I've purchased 2 for my bulldog puppies and they love them.
- As soon as I bought this my female cat was straight in it! She switches between the cat pod and her cat doughnut. The pod itself is sturdy and is a good size for any cat to stretch/sleep as they like doing. Would recommend.
- Bought for my elderly cat, she loves it. Keeps her warm as its draught free and easily wiped clean so not waiting for it to dry from being washed.
