ALLERGIES:

There is always a possibility of an individual being allergic to one or several ingredients within a product. A low irritant claims does not infer that susceptible individuals will not react adversely. Allergies are very much a personal condition and do not in any way indicate a fault with the substance involved. Natural substances particularly are vulnerable to seasonal and other variations that may contribute to unanticipated reactions. Unfortunately, the only cause open in these situations is to ascertain the exact cause of the reaction and avoid all future exposure.
